	1998/1999	7	28	20	63	8	11	49	27

¹The numbers of outgoing students are not shown as percentages of the total number of enrolled students, because some medical schools do not offer study programs in some of the curriculum years.

² The numbers of Utrecht students are excluding the numbers of exchange students via the IFMSA-Utrecht (IFMSA: International Federation of Medical Students Associations) because they are not annually integrated in a database.

³ Enrolled students on December 1, 2000. Source: Central Bureau of Statistics.
